

CALEN BOLE

Product/Design Lead with 3+ years of experience designing products for startups and established enterprises. I apply a combination of creative and analytical thinking to translate complex problems into solutions aligned with business goals and user needs.

EXPERIENCE

Product Lead – SOULS, soulsarchive.info, February 2026 – Present

- Defined the MVP scope, design system, and AI features for a B2C archiving service.
- Conducted 19 qualitative interviews and synthesized feedback from 100+ potential users.
- Coordinated a team of 3 developers to align feasibility, KPIs, and schedules for a 6-month roadmap.
- ▣ Built an AI-centered workflow turning 40+ product specs and design briefs into shippable features, on schedule.

Design Lead – Niatec, nowbrains.com/Niatec, September 2025 – February 2026

- Redesigned the UX and CX for 2 distinct products: an enterprise IT dashboard and an aquatic drone.
- Mapped 20+ distinct conversation flows to integrate an AI assistant into the IT dashboard.
- Defined core KPIs and integrated analytics tracking across both platforms to measure performance.
- ▣ Boosted AI-assisted ticket resolutions by ~9x while delivering high-fidelity prototypes for the drone interface.

Thesis – ENSCI, d-u-b-s.github.io/The-Design-of-the-Digital-Afterlife, September 2024 – August 2025

- Authored a Master's thesis on thanatosensitive design and the digital legacy industry.
- Modeled an ethical design framework for the digital legacy industry based on a benchmark of 18 firms.
- Continued to provide freelance design services for startups at Station F, notably Circl and Estuaire.
- ▣ Delivered an interactive thesis website along with a companion book adapted for more general audiences.

Senior Designer – Circl Labs, www.circl.app, September 2023 – June 2024

- Designed the end-to-end product experience for a grocery price comparison application.
- Constructed and implemented a design system with 400+ elements for the MVP.
- Established an AI workflow pipeline for the automatic generation and categorization of 500+ images.
- ▣ Brought the MVP to market, acquiring 10,000+ users within 3 months while maintaining a 4.5/5 App Store rating.

Product Designer – ArcelorMittal, corporate.arcelormittal.com, May 2023 – September 2023

- Redesigned ArcelorMittal's e-commerce platform for steel products.
- Created user personas based on 12+ customer interviews and purchasing behavior analysis.
- Delivered a high-fidelity prototype of the platform with 160+ screens and developer specifications.
- ▣ Early testing revealed a 13% increase in completed purchases after optimizing product selection and checkout flows.

SKILLS

- **Market & User Research:** Interviews / Surveys / Benchmarking / Usability testing
- **Graphic Design:** Adobe Suite / Affinity Suite
- **Front-end:** HTML5 / CSS3 / JavaScript / Git
- **Prototyping:** Figma / Google Stitch / Claude Design / Paper / Storybook
- **Analytics:** Google Analytics / Contentsquare
- **Languages:** Native English / Fluent French (C1)

EDUCATION

- **ENSCI - Les Ateliers, September 2021 – December 2025:** Master's in Industrial Design
- **China Academy of Art, September 2018 – May 2021:** Master's in Fine Arts
- **Sciences Po, September 2016 – January 2017:** Exchange semester in Paris, France
- **Boston University, September 2013 – May 2017:** B.A. in political science and philosophy
