

CALEN BOLE

Product/Design Lead with 3+ years of professional experience leading projects for both small businesses and large corporations. I apply a combination of creative and analytical thinking to translate complex problems into solutions aligned with business goals and user needs.

EXPERIENCE

Product Lead – SOULS, soulsarchive.info, February 2026 – Present

- Defined the MVP scope, design system, and AI features for a B2C archiving service.
- Conducted 19 qualitative interviews and synthesized feedback from 100+ potential users.
- Coordinated a team of 3 developers to align feasibility, KPIs, and schedules for a 6-month roadmap.

Design Lead – Niatec, nowbrains.com/Niatec, September 2025 – February 2026

- Redesigned the UX and CX for 2 distinct products: an IT dashboard and an aquatic drone.
- Redesigned an AI assistant for the IT dashboard, requiring the mapping of 20+ distinct user flows.
- Implemented analytics tools that allowed to measure a near 10x AI resolution rate post-redesign.

Thesis – ENSCI, d-u-b-s.github.io/The-Design-of-the-Digital-Afterlife, September 2024 – August 2025

- Authored a Master's thesis on the digital legacy industry, presented as a book and interactive website.
- Modeled an ethical design framework for the digital legacy industry based on a benchmark of 18 firms.
- Continued to provide freelance design services for startups at Station F, notably Circl and Estuaire.

Senior Designer – Circl Labs, www.circl.app, September 2023 – June 2024

- Designed the product experience for a grocery price comparison application.
- Analyzed feedback from 80+ beta testers to identify usability friction points.
- Setup and AI workflow pipeline for the automatic generation of 500+ images.

Product Designer – ArcelorMittal, corporate.arcelormittal.com, May 2023 – September 2023

- Redesigned ArcelorMittal's e-commerce platform for steel products.
- Created user personas based on 12+ customer interviews and purchasing behavior analysis.
- Delivered a high-fidelity prototype of the platform with 160+ screens and developer specifications.
